

I AGREE WITH THE FILLING #RM-10413. I BELIEVE IT WOULD HELP HAM RADIO VERY MUCH. I'M VERY INTERESTED IN HAM RADIO BUT CW IS A MODE THAT I'M NOT INTERESTED IN RIGHT NOW. THERE ARE SO MANY OTHER MODES TO HAM RADIO SUCH AS PSK31-RTTY ETC THAT DOES NOT REQUIRE TESTING TO OPERATE THOSE MODES. I FEEL THERE ARE A LOT OF GOOD TECH AND TECH+ OPERATORS THAT WOULD BRING NEW LIFE TO THE HOBBY IF CW WAS NOT A REQUIREMENT TO GAIN HF ACCESS. CW WILL NOT DIE IT WILL ALWAYS BE PART OF HAM RADIO.

THANKS FOR LISTENING KD7TQM
